## NEGRO, IN PEKING, ACCUSES CUBANS

'Vicious Smear' of China in  
'Forged' Letter Charged

Robert F. Williams, an American Negro who is now a black nationalist spokesman in Peking, has charged that the Cuban regime of Premier Fidel Castro has counterfeited a newsletter he puts out and used the bogus periodical for "a vicious smear attack" on Communist China.

In the May issue of the newsletter, The Crusader, which has arrived here, Mr. Williams asserted that the "forged" version "carries a metered postmark that is available only for Cuban Government bulk mailing." He charged that the newsletter was put out by "the Cuban G-2", which he said was heavily infiltrated by the United States Central Intelligence Agency.

Mr. Williams left his home in Monroe, N. C., in 1961 and went to Cuba, where he advocated a "freedom struggle" for

Negroes in the United States. He left Cuba last year.

Another American Negro nationalist, Richard Gibson, in a current newsletter from London, describes Mr. Williams as "chairman-in-exile of the all-black Revolutionary Action Movement (RAM) in the United States." Sixteen persons, who

were said to be members of the revolutionary movement, were arrested in Queens last month on charges of having plotted to murder moderate Negro civil rights leaders.

The Crusader that Mr. Williams contended was mailed from Havana last month, has a headline, "China Betrays The Cuban Revolution" and has Mr. Williams saying that he was "deceived by the soft lies and subtle flattery" of Chinese Communist leaders. It goes on to say that Mao Tse-tung was now "old and sick and can no longer control his arrogant, power-mad underlings who, although acting in his name, have abandoned the people's revolution."

Mr. Williams' current Peking newsletter asserted that "Afro-Americans should refuse to fight" in Vietnam. But it added that "those who are trapped into it" could "work among the troops to educate them to the true facts of life."

As advice to Negroes at home, the newsletter said:

"Revolutionaries must play it cool. Infiltrate the police and the master infiltrators, the C.I.A. We must learn to subvert him at his own expense while using his facilities to advance our cause of Black liberation."

On Monday, Workers World,

a weekly here with a Trotskyist tendency, announced that it had obtained a statement from Mr. Williams denouncing the alleged murder plot here as a "frame-up."

"It is not my policy nor RAM's to kill condescending Uncle Toms," the statement said. "We are not an organization advocating pointless assassinations. We are dedicated freedom-fighters stressing armed self-defense. Our objective is to make America a just and decent place to live."
